Summary

Hi there! My name is Gajendrasinh Zala and I am a full-stack developer with almost 10 years of experience in the software development field in domains like banking & finance, logistics, telecommunication and insurance. I have worked extensively on both web and cross-platform mobile development projects, and am particularly skilled in various JavaScript frameworks such as Angular, AngularJS, ReactJS, and Ionic.

In addition, I also have strong backend skills in Java, Spring boot, NodeJS, and PHP.

Throughout my career, I have been passionate about design and developing creative and robust software solutions. I take pride in my ability to collaborate effectively with cross-functional teams to deliver high-quality projects on time and within budget.

As a full-stack developer, I am dedicated to staying up-to-date with the latest technologies and trends in the field. My ultimate goal is to continue leveraging my skills and experience to create innovative software solutions that meet the needs of users and businesses alike.

Skills

Software Development · Programming · Problem Solving · Database Design and Management · Software Architecture · System Design and Analysis · Debugging · Teamwork · Agile frameworks · Interpersonal communication skills · Java · SpringBoot · HTML5/CSS3 · Node.js · Angular · ReactJS · JavaScript · jQuery · TypeScript · GIT · Jira · MongoDB · MyQSL · PostgreSQL · CI/CD · Python · AWS · ASW Serverless · TypeScript

Experience

Oversea-Chinese Banking Corporation Limited (OCBC)
Singapore
Assistant Vice President
09/2023 - Present

Skills: Application Programming Interfaces (API) · Software Development · Troubleshooting · Problem Solving · ReactJS · Java · Spring Boot · Jenkins · PostgreSQL · HTML5/CSS3

- Design, develop and maintain Web Applications and project requirements
- Interface with business and IT teams to understand and translate business requirements into formal technical requirements and application code
- Develop and execute quality unit test and integration plans/scripts to validate that application changes meet technical specifications
- Participate in technical reviews at appropriate stages of software and application development
- Adhere to all security, change control and client processes, tools and methodologies
- Implemented and automated DevOps CI/CD pipelines and functions using
- Maintain brand consistency throughout the design process.

NTT Singapore Pte. Ltd (Client: Visa Worldwide Pte Limited)
Singapore
Senior Software Applications Development Engineer
10/2022 - 08/2023

Skills: Problem Solving · Technical Documentation · Application Programming Interfaces (API) · Software Development · Troubleshooting · Problem Solving · Angular · ReactJS · Java · Spring Boot · Jenkins · AWS · MongoDB · CI/CD · HTML5/CSS3

- Led end-to-end development of web applications using Java/Sprngboot, focusing on UI/UX enhancements using Angular.
- Facilitated collaboration between business and IT teams to ensure seamless translation of requirements into technical solutions.
- Contributed expertise in technical reviews, optimizing code quality throughout the development lifecycle.
- Built innovative microservices and Web Services (incl. SOA/SOAP/REST/XML).
- Efficiently deployed and integrated software engineered by team and updated integration/deployment scripts to improve continuous integration practices.
- Heavy focus on full stack engineering with modules on both front and back-end processes.
- Create wireframes to illustrate advanced solutions for applications.

LAURELSOFT (M) SDN.BHD (Client: Virtusa Malaysia Sdn Bhd)
Kuala Lumpur, Malaysia
Senior Software Engineer
04/2022 - 10/2022

Skills: Application Programming Interfaces (API) · Software Development · Troubleshooting · Problem Solving · Angular · ReactJS · Java · Spring Boot · Jenkins · AWS · MongoDB · Oracle · NodeJS · Express.js · CI/CD · HTML5/CSS3

- Engineered modern applications with ReactJS, NodeJs, Java, JavaScript, SQL Server, and No SQL.
- Built innovative microservices and Web Services (incl. SOA/SOAP/REST/XML).
- Design, develop, test and deploy design features in a timely manner.
- Worked to create tools that enhanced user interaction in any browser.

Experience

DHL Information Services (Asia-Pacific) Sdn. Bhd
Cyberjaya, Malaysia
06/2018 - 03/2022

Software Engineer

Skills: Application Programming Interfaces (API) · Software Development · Troubleshooting · Problem Solving· DevOps · Oracle SQL Developer · Business Requirements · Angular · ReactJS · Java · Spring Boot · Jenkins · AWS · MongoDB · Oracle · NodeJS · Express.js · CI/CD · HTML5/CSS3 · ElasticeSearch · Dockers

- Technical lead responsibilities for Web Application development team.
- Analyzed requirements, proposed technology, components and tools.
- Built innovative microservices and Web Services (incl. SOA/SOAP/REST/XML).
- Efficiently deployed and integrated software engineered by team and updated integration/deployment scripts to improve continuous integration practices.
- Technical lead responsibilities for Web Application development team.
- Worked to create tools that enhanced user interaction in any browser.

Plumslice Lab Pvt. Ltd
Ahmedabad, India
06/2017 - 06/2018

Software Engineer

Skills: Application Programming Interfaces (API) · Software Development · Troubleshooting · Problem Solving· DevOps · Oracle SQL Developer · Angular · ReactJS · Java · Spring Boot · Jenkins · AWS · MongoDB · Oracle · NodeJS · Express.js · CI/CD · HTML5/CSS3

- Engineered modern applications with Java, JavaScript, SQL Server, and No SQL.
- Primarily responsible for designing and development of the Web Application.
- Design, develop, test and deploy design features in a timely manner.
- Ensured the technology implemented promoted efficiency, speed, and smooth functionality.

Sync technologies pvt. ltd
Gandhinagar, India
12/2016 - 06/2017

Full Stack Developer

Skills: Technical Requirements · Business Requirements · Software Development · Troubleshooting · Problem Solving · AngularJS/Angular · NodeJS · Java · PHP · JavaScript · SAPUI5 · HTML5/CSS3 · Express.js · MySQL · MongoDB · CI/CD · NodeJS, · ExpressJS

- Heavy focus on full stack engineering with modules on both front and back-end processes.
- Built reusable and modular components in React.js & Angular, contributing to code maintainability and scalability
- Technical lead responsibilities for Web Application development team.
- Design, develop, test and deploy design features in a timely manner.
- Mentoring and training team members.
- Production deployments and 3rd level support.

Lumium Innovation Pvt Ltd
Ahmedabad, India
05/2015 - 12/2016

Software Engineer

Skills: Technical Requirements · Business Requirements · Software Development · Troubleshooting · Problem Solving · AngularJS/Angular · NodeJS · Java · PHP · JavaScript · SAPUI5 · HTML5/CSS3 · Express.js · MySQL · MongoDB · CI/CD

- Design, develop and test the new interfaces
- Prepare Low level design documents.
- Technical lead responsibilities for Web Application development team.
- Mentoring and training team members.

Xtreem Cyber Security LLP
Ahmedabad, India
04/2014 - 05/2015

Java Developer

Skills: Business Requirements · Software Development · Problem Solving · Technical Documentation · HTML5/CSS3 · Java · JSP/Servlet · Angular

- Design, develop and test web based solutions
- Prepare High and Low level design documents.
- Managed and trained software development team on .Net framework web development.
- Analyzed requirements, proposed technology, components and tools

Education

Gujarat Technological University
Junagadh, India
07/2010 - 08/2014

Bachelor of Engineering in Information Technologies
