PROFESSIONAL SUMMARY

Results-driven software developer with expertise in JavaScript, HTML, CSS, and proficiency in object-oriented programming languages such as Python and C#. Strong foundation in computer science fundamentals, including data structures, algorithms, and object-oriented design principles. Proven track record of collaborating with cross-functional teams, stakeholders, and product partners to deliver high-quality software with a focus on maintainability, scalability, and user experience.

SKILLS

- **Programming Languages:** JavaScript, HTML, CSS, Python, C#
- **Software Development:** Object-Oriented Programming (OOP), Data Structures, Algorithms
- **Tools & Technologies:** Git, Jira, Agile/Scrum, React, Node.js
- **Web Development:** Frontend & Backend Integration, UI/UX Design, Responsive Design
- **Collaboration & Support:** Code Reviews, Cross-functional Teamwork, Operational Support

PROFESSIONAL EXPERIENCE

Software Developer

Rojeworld IT Services Pvt Ltd | India | Feb 2020 – May 2021

- Contribute to the design, development, and delivery of software components and feature improvements in collaboration with the development team.
- Work with stakeholders and product partners to implement high-quality, user-friendly experiences based on feature specifications.
- Write clean, maintainable, and extendable code while ensuring adherence to coding standards and best practices.
- Developed high-quality React components, reducing load times by 20% and enhancing user engagement. Collaborated in Agile teams to deliver scalable, responsive designs for dynamic web applications
- Provide operational support by identifying and resolving root causes of issues, contributing to ongoing software stability.
- Actively participate in code reviews and daily stand-ups, fostering a collaborative environment for the team.
- Collaborate closely with the QA team to ensure product quality and a seamless user experience.

Junior Software Developer

Bizwy Pvt Ltd | India | Aug 2019 – Jan 2020

- Assisted in the development of frontend and backend solutions using JavaScript, HTML, and CSS to build dynamic web applications.
- Developed and maintained high-quality, scalable code with an emphasis on code reusability and performance optimization.
- Participated in agile development processes, including daily stand-ups, sprint planning, and retrospectives.
- Supported the identification and resolution of technical issues through bug fixes and operational monitoring.
- Collaborated with senior developers to improve software functionality and ensure code quality.

EDUCATION

Master of Science in Information Technology

Elmhurst University | Chicago, USA | May 2024

- Relevant Coursework: Data Structures, Algorithms, Object-Oriented Design, Web Development, Software Engineering

Projects: Website for ORGANIC FARM HUB

- The Organic Farm Hub is a digital platform designed to promote sustainable agricultural practices and facilitate the exchange of organic products between farmers and consumers. This project addresses the growing demand for sustainable farming by offering a user-friendly and feature-rich web application.
- Objective:
 - To empower farmers to showcase their organic practices and products while fostering collaboration and knowledge-sharing among stakeholders.
- Key Features:
 - Farmer Profiles: Highlight farming practices and products.
 - Product Marketplace: Facilitate buying and selling of organic goods.
 - Educational Resources: Provide guides and information on sustainable farming techniques.
 - Community Forums: Encourage interaction and collaboration among farmers and consumers.

Bachelor of technology in Computer Science Engineering

Visvesvaraya college of Engineering and technology | India | 2015 – 2019

Projects: Website for Gyan Academy

- Led the development of GYAN, a platform designed to help students track schedules, marks, and other essential information.
- Owned the profile page feature, developing numerous backend APIs using PHP and REST standards to support various functionalities.
- Created comprehensive test suites to cover edge cases, ensuring website stability and enhancing the user experience.
- Conducted manual testing, swiftly identifying and resolving bugs to improve product quality.
- Mentored recent graduates, fostering a collaborative team environment and facilitating knowledge transfer.
- Built a CI/CD pipeline for automated cloud deployment, reducing manual effort by 60%.

CERTIFICATIONS

- NPTEL course on problem solving through C by IIT Kharagpur
- Certification in Salesforce tool
- Advanced level certification in SAP Sales & Distribution

ADDITIONAL INFORMATION

- Actively learning new programming languages and frameworks to stay current with industry trends.
- Passionate about contributing to open-source projects and community-driven development efforts.
