DANIEL KHAN

PHP, WordPress & Vue.Js Developer

PROFILE

With over 12 years of experience in web development, I am highly proficient in PHP, WordPress, React, and Angular. This unique combination of skills allows me to handle a full spectrum of development tasks, from backend logic with PHP to crafting interactive and modern web interfaces with React and Angular. My expertise extends to creating custom WordPress themes and plugins, ensuring that content management is both user-friendly and powerful. As a highly seasoned developer, I have a track record of delivering high-quality, scalable, and performance-optimized web solutions, allowing me to become a valuable asset to any team requiring depth and versatility

WORK EXPERIENCE

Parallax Web Inc

2020 - PRESENT

Web Developer & Strategist

- Developed and maintained web applications using PHP, Laravel, and Vue.js, ensuring high performance and scalability.
- Designed and implemented web and mobile applications, focusing on user experience and responsive design to meet diverse client needs.
- Created comprehensive development plans and strategies, aligning project goals with business objectives and client requirements.
- Led product design initiatives, collaborating with cross-functional teams to deliver innovative and user-centric solutions.
- Served as Scrum Master, facilitating agile development processes, conducting sprint planning, and ensuring timely project delivery.
- Conducted client demos and presentations, showcasing application features and gathering feedback to refine and enhance products.
- Managed the end-to-end development lifecycle, from initial concept through deployment and ongoing maintenance, ensuring quality and efficiency.
- Provided strategic insights and recommendations to clients, helping them leverage technology to achieve their business goals and improve operational efficiency.
- Implemented best practices for code quality and performance optimization, resulting in robust and maintainable applications.
- Coordinated with UX/UI designers to create visually appealing and intuitive interfaces, enhancing user satisfaction and engagement.
- Utilized version control systems like Git to manage code repositories and streamline collaboration among development teams.
- Conducted thorough testing and debugging to ensure applications were free of errors and met client specifications.

DANIEL KHAN

PHP, WordPress & Vue.Js Developer

WORK EXPERIENCE

- Apricot Law** 2016 - 2020
Web Developer
 - Revamped the web development team and overhauled all internal processes, significantly improving efficiency and productivity.
 - Introduced new development standards, including the integration of Git for version control and management platforms like WP Engine, to streamline workflows and enhance project management.
 - Participated in comprehensive design sessions to create visually stunning and user-friendly websites, ensuring an exceptional viewing experience for high-paying clients.
 - Utilized a technology stack that included WordPress, HTML, CSS, JavaScript, and Bootstrap to develop responsive and dynamic websites tailored to client needs.
 - Led several internal projects aimed at generating additional revenue streams, contributing to the firm's overall growth and profitability.
 - Collaborated closely with the SEO team to ensure websites were optimized for search engines, improving client visibility and search rankings.
 - Conducted regular code reviews and provided mentorship to junior developers, fostering a culture of continuous improvement and professional development within the team.

PROJECTS

- Matchbox Design Group** 2019

As a freelance web developer for Matchbox Design Group, I worked on various projects for multiple clients, utilizing technologies such as WordPress, PHP, and Laravel. My role involved developing and maintaining dynamic, responsive websites, ensuring high performance and user satisfaction. Through collaboration with clients and team members, I delivered tailored web solutions that met specific business needs and enhanced online presence.

DANIEL KHAN

PHP, WordPress & Vue.Js Developer

PROJECTS

RimonLaw

2020

For the freelance project with Rimon Law, I transformed their entire website from static HTML to a dynamic WordPress/PHP site. This involved redesigning the site to be more user-friendly and responsive, ensuring seamless navigation and improved functionality. The new site provided Rimon Law with a modern, scalable platform that enhanced their online presence and client engagement.

Ugly Duck Marketing

2021

For Ugly Duck Marketing, I worked on several projects utilizing PHP, Laravel, and Vue.js. One notable project was InfinityComm.com, a vendor management platform designed to streamline the process of vendors submitting bids to tenders. This platform provided a user-friendly interface and robust backend, ensuring efficient and secure bid submissions, enhancing the overall vendor management experience.
